

DBRED GIPS FOAM

ANTIVIBRATION HANGERS

DBRED GIPS FOAM Antivibration hangers

<p>APPLICATIONS FIELDS</p>	<ul style="list-style-type: none"> · Acoustic insulation of suspended-ceiling with boards. · Easy and fast connection to metal profiles of suspended-ceiling systems.
<p>DESCRIPTION</p>	<p>Antivibration hangers for suspended-ceiling with Regufoam® boards. dBred Gips Foam have a suspension structure of galvanized steel, which is easy and fast to be connected to standard profiles 50 x 27 mm, making easier the application and reducing the costs. The elastomer of dBred Gips Foam hangers are composed of high quality polyurethane foam, manufactured by BSW with Regufoam® brand. Laboratory certifications of the product are available.</p>
<p>TECHNICAL CHARACTERISTICS</p>	<p>dBred Gips Foam is available in two different elastomer's thickness:</p> <ul style="list-style-type: none"> · 12 mm [basic version]. · 25 mm [increased version]. <div data-bbox="478 981 790 1249" data-label="Image"> </div> <p><i>Example of application on metal profile.</i></p>
<p>MAXIMUM LOAD</p>	<p>20 kg for hanger.</p>

All the indications provided in this technical sheet are purely approximate and not binding for legal purpose. The data listed has been gathered from laboratory test and it hence follows that in practical applications on building sites the final products may be subject to variations depending on meteorological conditions and the installation. The user must always check suitability of the product for its specific use, undertaking all liability implicit in and deriving from use of the product, as well as comply with all methods and instruction for use generally referable to "workmanlike" execution. Edilteco S.p.A reserves the right to change the contents of this mechanical data sheet on its final judgment. The spreading of this data sheet through any media, supersedes and cancels the validity of any other technical data sheet previously published.
