Electrical power supply

SINGLE ROTATING DISC FOR BASE SCREEDS AND SCREEDS

ELECTRICAL SANDER SINGLE DISC Single rotating disc for base screeds and screeds

TYPE OF EQUIPMENT	Equipment for the surface smoothing of lightweight thermal insulating base screeds and screeds. Ideal for the surface smoothing of lightweight and thermo insulating single-layer base screeds and screeds (Piano Zero System). The equipment is supplied with the "Manual of Use" and "CE Conformity Declaration" according to the current legislation 89/392/CEE.	
TECHNICAL CHARACTERISTICS	Power supply:	230 V
	Version:	Single disc (at 1 disc)
	Engine:	Single phase
	Weight:	Approx. 29 kg
	Working area:	Ø 40 cm
	Disc rotation speed:	150 rpm
STANDARD EQUIPMENT	<ul style="list-style-type: none"> · 10 m of electrical alimentation cable. · 1 abrasive disc. 	

All the indications provided in this technical sheet are purely approximate and not binding for legal purpose. The data listed has been gathered from laboratory test and it hence follows that in practical applications on building sites the final products may be subject to variations depending on meteorological conditions and the installation. The user must always check suitability of the product for its specific use, undertaking all liability implicit in and deriving from use of the product, as well as comply with all methods and instruction for use generally referable to "workmanlike" execution. Edilteco S.p.A reserves the right to change the contents of this mechanical data sheet on its final judgment. The spreading of this data sheet through any media, supersedes and cancels the validity of any other technical data sheet previously published.

OPTIONAL ACCESSORIES

◦ ABRASIVE PAPER DISC

Available in different grains.
