NEW PRODUCTION FACILITIES HAS BEEN INSTALLED AT EDILTECO BENELUX

At the beginning of August the EPS and Politerm production has started in the new Edilteco Benelux factory, powered by Edilteco NATIVE technology: an innovative automatized system for the silo control and Politerm production. The production of the Edilteco Benelux factory will allow to the Group of San Felice sul Panaro to reach its customers more quickly and more capillary in Belgium, Luxemburg, Nederland and North of France. Edilteco Benelux SA was born in 1995 with the purpose to support those strategic areas, offering the know-how and products with high technical and high performance qualities, directly on site. Edilteco Benelux provides “ thanks to an highly qualified team based in Bruxelles “ quick response technical and commercial assistance to all its customers and it is able to solve any kind of problem regarding thermal and acoustic insulation.
